

5 lb. Purple K Dry Chemical Fire Extinguisher

The Buckeye Purple K Dry Chemical Fire Extinguisher is a high performance fire extinguisher that is highly effective on flammable liquid fires. The potassium bicarbonate based agent is the preferred agent for military and oil & gas industry applications because of its proven firefighting capabilities.

Key Features

- Stored Pressure design makes the unit easy to use and maintain.
- Heavy-duty drawn steel cylinders and all-metal valve construction make this extinguisher durable.
- Polyester epoxy powder coat paint and anodized metal surfaces provide lasting corrosion resistance.
- The all-metal double strap vehicle bracket assures the unit is secure and readily accessible when needed.
- Extinguisher meets the requirements of US DOT and USCG for use on road and marine vehicles.
- Barcoded labels to facilitate inspection and maintenance documentation.

SPECIFICATIONS

Model Number	5 HI SAN-PK
Part Number	25914NDS
Agent Capacity	5 lbs.
UL Rating	10-B:C
Operating Temperature Range	-65°F to 120°F
Discharge Time & Range	12.4 sec / 12 -18 ft.

Operating Pressure	195 psi
USCG Approval	Type B:C Size I
Ship Weight	9.5 lbs.
Unit Height	16.375 in.
Unit Width	6 in
Unit Diameter	4.25 in
